Updated 7-17-14

In 2006, the City of Long Beach Department of Health and Human Services (Health Department) celebrated its 100th anniversary providing public health services to Long Beach residents. The Health Department promotes and protects the public's health by supporting and empowering the local community to participate in actions to make Long Beach a healthy city. By having its own Health Department, the City of Long Beach is able to design and deliver programs to meet the specific needs of Long Beach residents, which assists in their involvement in making Long Beach a healthier place to live, work and play.

Kelly Colopy, Director

City of Long Beach

Department of Health & Human Services
